

# Creating a New Society

To whom it may concern:

With the understanding that man in general has not done a good job of creating a peaceful and productive atmosphere of living for all mankind: A large area of neutral land has been set aside to create a new society for the development of a new nation.

This area will have almost all the natural resources necessary to provide for the new nation. 20,000 men and women will volunteer from all around the world to live in the new land and help create this new society.

You have been chosen as delegates to help set up the governing body that will guide the future of these brave men and women.

This is a heavy responsibility as the fate of the whole world rests upon your shoulders.

Good luck

## **Discuss the following aspects of our new nation**

1. Which political system will the country have?

---

2. What will the official language or languages be?

---

3. Will there be censorship?

---

4. What industries will your country try to develop?

---

5. Will citizens be allowed to own and carry guns?

---

6. Will there be a death penalty?

---

7. Will there be a state religion?

---

8. What kind of immigration policy will there be?

---

9. What will the education system be like? Compulsory? Paid or Free?

---

10. Who will be allowed to marry?

---

11. What will you do to keep crime low? Will prison be used to reform or to punish?

---
