- | | | | | | |
|------------------|-------------|----------|--------------------------|-------|---------|
| Stone technology | Clothing | Ceramics | Domestication of animals | Bow | Fire |
| Copper | Agriculture | Wheel | Writing systems | Glass | Sundial |

What was the industrial revolution? Why was it so important?

Textiles * Steam Power * Iron making * smelting * steam engine * Factories * Concrete * Machine tools

Why is the **Transfer of knowledge** so important in technology?

Historically what are some of the greatest Technological achievements?

MODERN TECH YOU CAN'T LIVE WITHOUT...

1. MICROWAVE...

Technology

Past-Present-Future

Future of War?

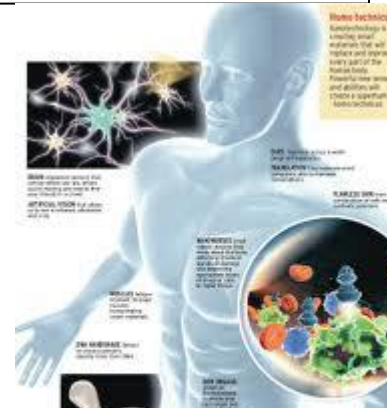

Smart tech Lasers _____

Robots Satellites _____

Drones Computers _____

Future of Medicine

Clones Nano tech Internet surgery

How will technology change in the future?

Will we ever see a change in Transportation?

Will we ever see paper disappear for good?

Do you shop online?

What is the concern?

Will the shopping center disappear?

Considering the pros and cons of technology, do you think it has made your life better or worse?
